

RESUME

Full name: Gal Perelman
Identity No.: 021622535
Phone: +972-54-5873174
E-mail: gal-p@campus.technion.ac.il
Google scholar: [Google scholar](#)

ACADEMIC DEGREES

Ph.D. 2021, Faculty of Civil and Environmental Engineering, Technion, Direct course (ongoing)
B.Sc. 2013, Faculty of Civil and Environmental Engineering, Technion, Final grade: 88, Cum Laude

PROFESSIONAL EXPERIENCE

2018-2021 Modeling Engineer, Mekorot – Israel National Water Company
2017-2018 Data Analyst, BiMarket – Construction management AI startup (closed)
2013-2017 Water Supply Engineer and Project Manager, Ecolog Engineering Ltd.

TEACHING EXPERIENCE

Statistics (undergraduate) – Teaching assistant
Systems Analysis (undergraduate) - Teaching assistant

AWARDS AND HONORS

2022-2023 Climate scholarship KKL-JNF
2022 4th place at The Battle Of Intermittent Water Supply (WDSA-CCWI 2022)

PUBLIC PROFESSIONAL ACTIVITIES

Reviewer of journals: Water Resource Planning and Management, Water Resources Management
Contributor to the hydraulic modeling open-source software (EPANET) community
Engineers Without Borders – Water access to communities in developing countries

RESEARCH INTERESTS

My research focuses on optimization and decision making in water resources and particularly water distribution systems. Currently, I'm working on my Ph.D. entitled "Optimal Operation of Water Distribution Systems Under Uncertainty". My research goal is to adopt state of the art development in data science and optimization theory to cope with the major challenges facing the management of water and energy systems.

PUBLICATIONS

Refereed papers in professional journals

- 1) Perelman, G., Fishbain, B. (2022) Critical Elements Analysis of Water Supply Systems to Improve Energy Efficiency in Failure Scenarios. *Water Resour Manage* 36, 3797–3811.
